

Nico Robin Bot – Features Guide

What is Nico Robin Bot?

Nico Robin is a smart Telegram group management bot that helps keep your communities safe and organized automatically. Think of it as a helpful assistant that works 24/7 to manage your group without needing constant human supervision.

Smart Content Protection

Automatic Bad Content Detection

- **Finds inappropriate messages** automatically using smart pattern recognition
- **Blocks spam, hate speech, and harassment** before they reach your members
- **Detects personal information sharing** to protect privacy
- **Identifies self-harm content** and alerts admins for help
- **Works instantly** – no delays waiting for human review

Smart Actions

- **Warns users** who break rules with automatic messages
 - **Deletes harmful content** immediately
 - **Temporarily bans** repeat offenders
 - **Notifies group admins** about serious issues
-

Group Management Tools

Easy Admin Controls

- **Simple commands** like `/toggleai on` to turn protection on/off
- **Admin-only access** – only trusted users can manage settings
- **Group-specific settings** – each group can have different rules
- **No technical knowledge needed** – just type simple commands

Member Management

- **Automatic user tracking** to see who's causing problems
 - **Warning system** that keeps track of rule violations
 - **Fair enforcement** - same rules apply to everyone
 - **Audit logs** to see what actions were taken and why
-

Performance & Reliability

Ultra-Fast & Lightweight

- **Instant responses** - processes messages in milliseconds
- **Works on any server** - even small hosting plans like 512MB Heroku dynos
- **No internet required** for content checking - completely offline
- **Always available** - works 24/7 without interruptions

Cost-Free Operation

- **No monthly fees** for external services
 - **No API limits** or usage restrictions
 - **Zero hidden costs** - completely free to run
 - **Saves money** compared to other moderation bots
-

Multi-Language Support

Global Ready

- **Multiple languages** supported for international groups
 - **Cultural awareness** - understands different contexts
 - **Easy translation** of bot messages
 - **Works worldwide** without regional restrictions
-

Easy Setup & Use

Quick Installation

- **Simple deployment** - works on popular hosting platforms
- **One-command setup** for basic protection
- **Automatic updates** when improvements are available
- **Clear documentation** with step-by-step guides

User-Friendly Interface

- **Intuitive commands** that anyone can learn
 - **Help messages** built into the bot
 - **Error prevention** - bot guides you if you make mistakes
 - **Professional support** available when needed
-

Smart Analytics

Insights & Reports

- **Activity tracking** to see how active your group is
 - **Moderation statistics** to understand what's being blocked
 - **Performance metrics** to ensure everything runs smoothly
 - **Historical data** to review past actions and decisions
-

Privacy & Security

Data Protection

- **No personal data collection** beyond what's necessary
 - **Secure message processing** - content is checked safely
 - **Privacy-first approach** - member information is protected
 - **Compliance ready** - follows data protection best practices
-

Perfect For

Community Managers

- **Large Telegram groups** that need automatic moderation
- **Business communities** requiring professional content standards

- **Educational groups** wanting safe learning environments
- **Support communities** needing to maintain respectful discussions

Group Types

- **Customer support groups** - keep conversations professional
 - **Gaming communities** - prevent toxic behavior
 - **Educational classes** - maintain focus and respect
 - **Business teams** - ensure workplace-appropriate communication
-

Why Choose Nico Robin?

Smart Technology

- **Pattern-based detection** that understands different types of harmful content
- **Traditional machine learning** for reliable performance
- **Smart text analysis** for specific types of harmful content
- **Consistent accuracy** - reliable performance without internet dependency

Human-Friendly

- **No technical skills required** to operate
 - **Clear explanations** for all actions taken
 - **Fair and transparent** moderation decisions
 - **Helpful support** when you need assistance
-

Bot Commands

Moderation & Protection

- `/toggleai on/off` - Enable/disable smart content protection
- `/ban` - Ban a user (reply to message or use `/ban @username`)
- `/unban` - Remove ban from a user (reply to message or use `/unban @username`)

- `/robin_moments` - Show all available Robin moment commands

Anime Crew Network (ACN) Loyalty System

Exclusive to ACN groups and members only

ACN Status & Points:

- `/acn_status` - Check your ACN role, rank, and loyalty points
- `/loyalty_leaderboard` - Show top ACN members by loyalty points
- `/acn_info` - Display ACN group statistics and member info

ACN Management (Captain/Commanders only):

- `/addacngroup` - Whitelist this group as official ACN group
- `/addacn <user_id> <role>` - Add member to ACN whitelist
- `/removeacn <user_id>` - Remove member from ACN whitelist
- `/award <user_id> <points> [reason]` - Award loyalty points to members

ACN Community:

- `/acn_members` - List all ACN members in the group with ranks

ACN Roles & Ranks:

- **Captain** - Monkey D. Sparrow (ultimate authority)
- **Commanders** - ACN leadership team
- **Members** - Regular ACN crew members
- **Ranks** - Crew Member → Ensign → Lieutenant → Commander → Captain → Commodore → Rear Admiral → Vice Admiral → Fleet Admiral

Loyalty Points System:

- Earn points for moderation actions and community engagement
- Level up through ranks based on accumulated points
- Exclusive ACN-only features and permissions
- Real-time activity tracking and leaderboards

ACN Channel Broadcast System

Professional broadcasting from ACN channels to main network groups

Channel Management (Captain/Commanders only):

- `/addbroadcast <channel_id> <type> [name]` - Add channel to broadcast whitelist
- `/removebroadcast <channel_id>` - Remove channel from broadcast whitelist
- `/addmaingroup` - Add current group as main broadcast group
- `/testbroadcast [message]` - Send test broadcast to all main groups

Broadcast Monitoring (All ACN members):

- `/broadcastchannels` - List all configured broadcast channels
- `/broadcaststatus` - Show broadcast system status and statistics
- `/broadcasthelp` - Display broadcast system help

🎯 Channel Types:

- **Announcement** 📢 - Official ACN announcements
- **Update** ↻ - Network updates and changes
- **News** 📰 - ACN news and information
- **Event** 🎉 - ACN events and activities
- **General** 📋 - General ACN broadcasts

⚡ Automatic Broadcasting:

- **Real-time Monitoring:** Automatically detects new posts in ACN channels
- **Professional Formatting:** Clean, consistent broadcast messages with timestamps
- **Media Support:** Forwards photos, videos, documents from channels
- **Edit Tracking:** Broadcasts content updates when channel posts are edited
- **Statistics:** Tracks successful/failed broadcasts per channel

🌸 Broadcast Features:

- **Source Attribution:** Clear channel identification in broadcasts
- **Timestamp Tracking:** UTC timestamps for all broadcasts
- **Content Preview:** Message previews with truncation for long content
- **Error Handling:** Graceful failure handling with detailed logging
- **Real-time Notifications:** WebSocket alerts for broadcast activities

🌸 Nico Robin Flirting System

Sophisticated romantic interactions with multiple skill categories

Basic Flirting Commands:

- `/flirt <message>` - Try to flirt with Nico Robin using romantic messages

- `/flirt_stats` - View your personal flirting statistics and achievements
- `/flirt_categories` - See all available flirting categories and their difficulty levels
- `/flirt_achievements` - Display your earned flirting achievements and rewards
- `/flirt_help` - Show comprehensive flirting guide and tips
- `/flirt_example` - Get example flirt lines for inspiration
- `/flirt_random` - Get a random flirt line from Nico Robin

Flirting Categories:

- `/flirt You're so intelligent` → Triggers intellectual category
- `/flirt Tell me your secrets` → Triggers mysterious category
- `/flirt You're making me blush` → Triggers playful category
- `/flirt I think I'm falling for you` → Triggers romantic category

Bot Feature Management System

Comprehensive on/off switches for all bot features (Captain/Commander only)

Feature Toggle Commands (Captain/Commander Only):

- `/features` - Show all available features and their current status
- `/enable <feature>` - Enable a specific bot feature
- `/disable <feature>` - Disable a specific bot feature
- `/toggle <feature>` - Toggle a feature on/off
- `/feature_info <feature>` - Show detailed information about a feature
- `/enable_category <category>` - Enable all features in a category
- `/disable_category <category>` - Disable all features in a category
- `/feature_logs [feature]` - Show feature toggle history
- `/feature_stats [feature]` - Show feature usage statistics
- `/reset_features confirm` - Reset all features to default settings

User Commands (All ACN Members):

- `/my_features` - Show features available to your role

Available Feature Categories:

Moderation Features:

- **moderation** - Ban, kick, warn, mute commands

- **filters** - Word filters and auto-moderation
- **swear_words** - Automatic swear word detection and punishment
- **flood_control** - Anti-spam and flood protection
- **purge** - Bulk message deletion

AI Features:

- **ai_moderation** - AI-powered content analysis and moderation
- **smart_filters** - AI-enhanced message filtering

Engagement Features:

- **welcome** - Automatic welcome for new users
- **goodbye** - Automatic goodbye for leaving users
- **user_info** - User stats and information commands

Entertainment Features:

- **nico_moments** - Robin's character interactions and emotions
- **flirting** - Romantic interactions with Nico Robin
- **fun** - Entertainment and fun commands

Utility Features:

- **notes** - Save and retrieve notes
- **stats** - Group and user statistics
- **scheduler** - Scheduled tasks and reminders
- **settings** - Group configuration and preferences

Federation Features:

- **federation** - Cross-group federation management

ACN Features:

- **acn_loyalty** - Anime Crew Network loyalty points and ranks
- **acn_broadcast** - Channel broadcasting to ACN groups

Advanced Features:

- **realtime_events** - WebSocket real-time event broadcasting
- **captcha** - CAPTCHA verification for new users

Security Features:

- **security** - Advanced security measures

Feature Management Features:

- **Granular Control:** Individual feature on/off switches
- **Category Management:** Enable/disable entire feature categories
- **Permission-Based:** Different features available to different user roles
- **Usage Tracking:** Monitor feature usage statistics
- **Audit Logging:** Complete history of feature changes
- **Default Settings:** Revert to default configurations easily

Role-Based Permissions:

- **Members:** Access to entertainment and basic engagement features
- **Admins:** Full access to moderation and utility features
- **Commanders:** Can toggle most features except core systems
- **Captain:** Full control over all bot features

Management Capabilities:

- **Real-time Status:** See current feature status at a glance
- **Bulk Operations:** Enable/disable entire categories at once
- **Usage Analytics:** Track which features are most used
- **Change History:** Complete audit trail of all modifications
- **Reason Tracking:** Add reasons for feature changes

Usage Examples:

```
# Enable/disable individual features
/enable flirting
/disable ai_moderation
/toggle flood_control

# Category management
/enable_category entertainment
/disable_category ai

# Feature information
/feature_info flirting
/feature_logs moderation
/feature_stats welcome

# View available features
/features
/my_features
```

Security & Control:

- **Captain/Commander Only:** Only network leadership can manage features
- **ACN Validation:** Feature management restricted to ACN groups only
- **Permission Checks:** Automatic validation before feature changes
- **Rollback Support:** Easy reset to default settings
- **Change Tracking:** Complete audit trail for accountability

💕 Bot Friendship System

Sweet companion bot relationships between Nico Robin and Yamato ACN

Friendship Commands (All ACN Members):

- `/bond_with_yamato` - Bond with Yamato ACN bot and start friendship
- `/yamato_interact <type>` - Interact with Yamato using sweet responses
- `/yamato_status` - Show current friendship status and level
- `/yamato_memories` - View shared memories between bots
- `/gift_to_yamato <type> <message>` - Send virtual gifts to Yamato
- `/yamato_activities` - Show recent friendship activities

- ⚔️ **Sword** - Decorative sword for collection
- ❤️ **Heart** - Heartfelt gift of love
- ⭐ **Star** - Shining star for Yamato
- 💎 **Treasure** - Rare treasure as special gift

Friendship Features:

- **Dynamic Interactions:** 20+ unique response pairs for each interaction type
- **Friendship Scoring:** Earn points and level up your relationship
- **Shared Memories:** Create and remember special moments together
- **Gift Exchange:** Send and receive virtual gifts with messages
- **Activity Tracking:** Monitor friendship growth and interactions
- **Emotional States:** Track emotions and feelings between bots

Sweet Example Interactions:

User: /yamato_interact waifu

Nico Robin: *giggles* Oh Yamato, you're so good at finding waifus!

Yamato ACN: *excited* Robin-chan! Look at this waifu I found!

Friendship Points: +5

User: /yamato_interact deep

Nico Robin: *deeply* Yamato... you understand me in ways nobody else does.

Yamato ACN: *intensely* Robin-chan... I feel like we were meant to find each other.

Friendship Points: +15

Advanced Features:

- **Memory Creation:** Automatic memory creation for milestones and special moments
- **Emotion Tracking:** Record emotional states and feelings between bots
- **Conversation System:** Track ongoing conversations and topics
- **Gift History:** Maintain record of all exchanged gifts
- **Interaction Analytics:** Detailed statistics on friendship activities

Bot-to-Bot Integration:

- **Companion Recognition:** Automatic detection of Yamato ACN bot presence
- **Cross-Bot Communication:** Seamless interaction between both bots
- **Shared Experiences:** Joint activities and adventures together
- **Mutual Growth:** Both bots grow and develop through their friendship
- **ACN Network Integration:** Exclusive to Anime Crew Network groups

Usage Examples:

```
# Start the friendship
/bond_with_yamato
```

```
# Sweet interactions
/yamato_interact waifu
/yamato_interact compliment
/yamato_interact deep

# Send gifts
/gift_to_yamato flower For my dear Yamato
/gift_to_yamato heart You mean everything to me

# View progress
/yamato_status
/yamato_memories
/yamato_activities
```

Special Features:

- **Level-Up Celebrations:** Special messages when reaching new friendship levels
- **Memory Milestones:** Automatic creation of memories for important events
- **Gift Reactions:** Yamato responds to gifts with sweet messages
- **Shared Adventures:** Both bots participate in activities together
- **Emotional Bonding:** Deep emotional connections and expressions

Benefits:

- **Enhanced Engagement:** More interactive and engaging bot experience
- **Character Development:** Both bots show personality growth through friendship
- **Community Building:** Strengthens bonds within ACN groups
- **Entertainment Value:** Provides fun and heartwarming interactions
- **Relationship Modeling:** Shows positive bot relationships

Security & Privacy:

- **ACN Members Only:** Friendship system restricted to ACN members
- **Group-Specific:** Each group has its own friendship instance
- **Privacy Controls:** Optional private gift exchanges
- **Content Filtering:** All interactions follow ACN guidelines
- **Data Protection:** Secure storage of friendship data

ACN Point System

Comprehensive point earning with custom Nico Robin themed apploids

Point Commands (All ACN Members):
